

## **2 Heads Are Better Than 1**

### **Iteration 1**

#### ***Design Documents***

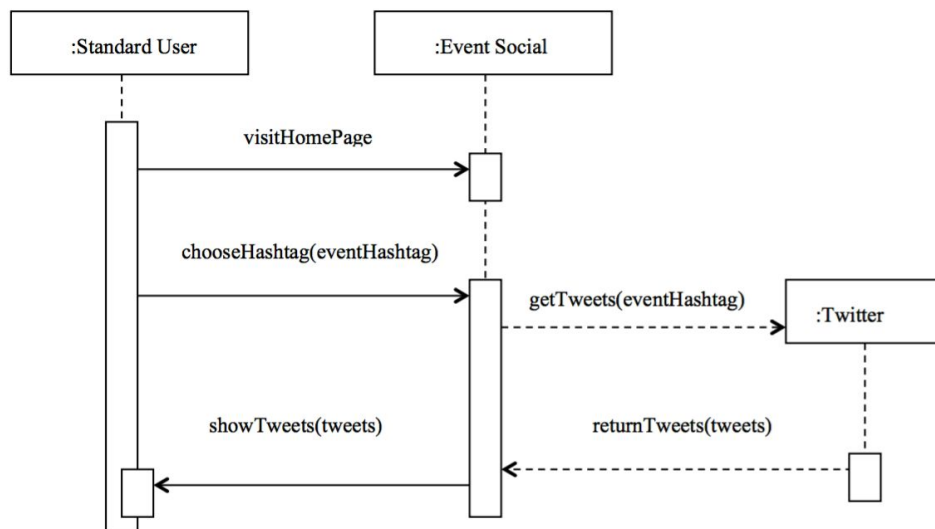

##### **Simple Login Scenario (Basic Flow)**

- 1.) User navigates to any page of Event Social while not logged in.
- 2.) User enters in email address and password.
- 3.) User clicks login button.
- 4.) User is logged in and redirected back to the home page.

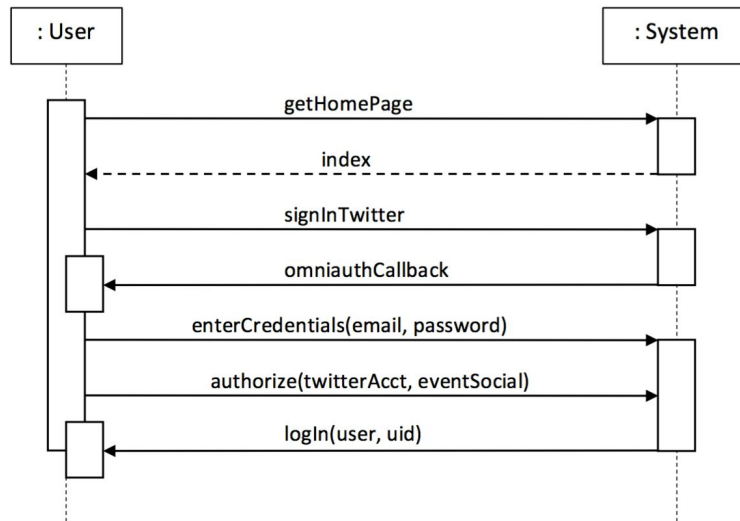

##### **View Tweets for Hashtag Scenario (Basic Flow)**

- 1.) User navigates to the tweets page.
- 2.) User chooses the hashtag that they want to see from the menu on the left.
- 3.) System displays all the tweets for that hashtag on the user's home page.

### Simple Login Scenario (Alternate Flow)

- 1.) User navigates to any page of Event Social while not logged in.
- 2.) User clicks sign in with Twitter button.
- 3.) User enters in their Twitter username and password.
- 4.) User authorizes Event Social to have access to their Twitter account.
- 5.) User is logged in and redirected back to the home page.

### View Tweets for Hashtag Scenario (Alternate Flow)

- 1.) User navigates to the tweets page.
- 2.) User clicks on subscribe to event button on the left.
- 3.) User enters in the hashtag for the event that they would like to view.
- 4.) System subscribes user to that event and displays all the tweets for that hashtag on the user's home page.
