

## 2 Heads Are Better Than 1

### Iteration 3

#### *System Sequence Diagrams (SSDs)*

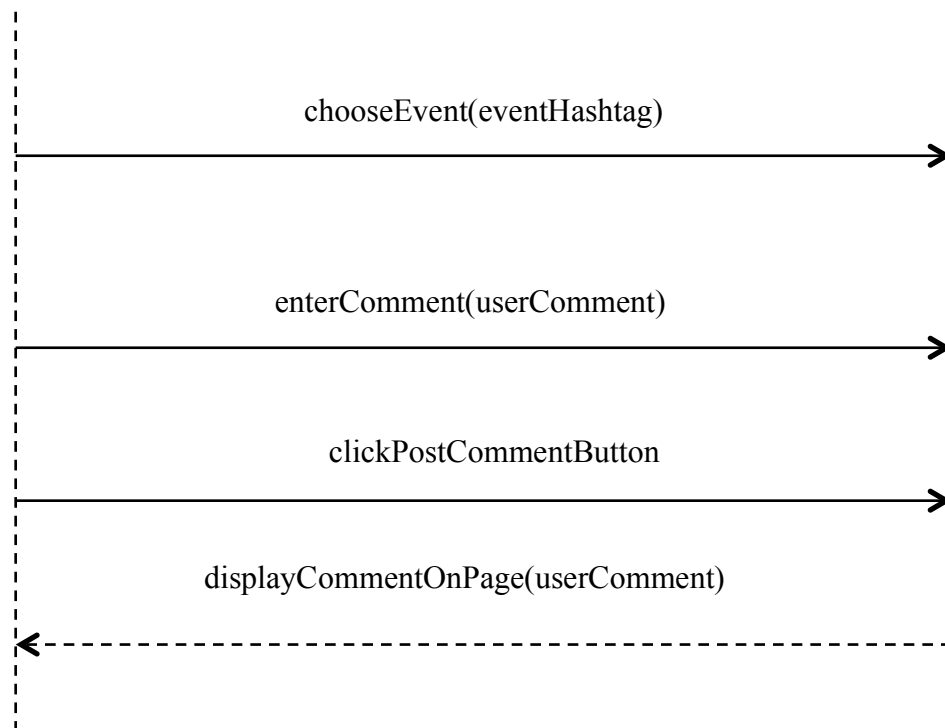

##### Add Comments Scenario (Basic Flow)

- 1.) User chooses event from the sidebar.
- 2.) User enters comment into comment textbox.
- 3.) User clicks Post Comment button to submit their comment.
- 4.) Comment appears on the page.

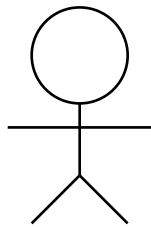

:Standard User

:Event Social

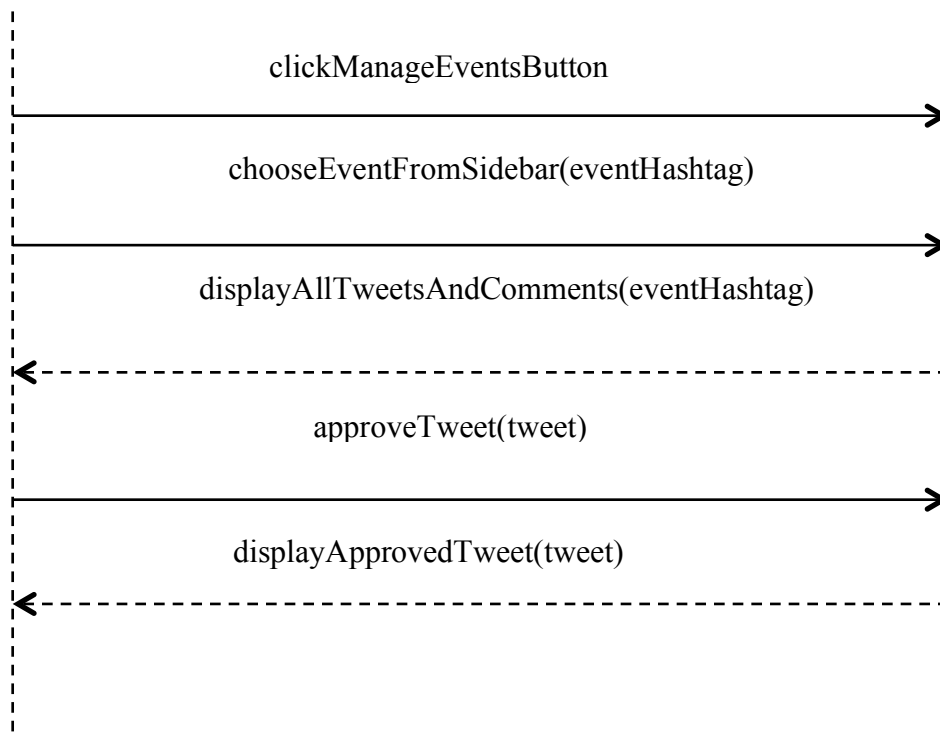

### Moderate Event Scenario (Basic Flow)

- 1.) Event Manager navigates to the Manage Events page by clicking the Manage Events button in the dropdown menu in the top navigation bar.
- 2.) Event Manager chooses what event they want to moderate by selecting an event from the sidebar on the left.
- 3.) All tweets and comments that have not been moderated are displayed on the page.
- 4.) Event Manager clicks the checkmark next to a tweet to approve it for the event.
- 5.) Tweet is approved, so it now displays on the tweets page.
